Respectfully submitted,

JOHN G. TOWNSEND, Town Clerk.

ABSTRACT OF ADJOURNED TOWN MEETING**APRIL 6th, 1925**

Under Art. 10 the following report was read:

Report of Committee on Water Supply

To the Voters of Jaffrey:

The committee of seven chosen at the previous session of the annual Town Meeting, held on March 10, 1925, to make further investigation of the question of an additional water supply; and to report at this time with "specific recommendations," having attended to the duty assigned them, respectfully submit the following report:

In view of the acute shortage in the water supply of the town during the past fall and winter, and the greatly increased fire hazard due to the reduced storage in Bullet pond, the Water Commissioners employed Messrs. Sanborn & Bogert of New York City, Consulting Engineers and Specialists upon water supplies, to make an investigation of the unused water resources of the town. The report of this investigation was printed and distributed to the voters of the town previous to its annual meeting March 10.

An article was inserted in the warrant for this meeting under which such action might be taken as would in the opinion of the town best meet the necessities of the situation; but as some important considerations affecting the carrying into effect of the engineer's recommendation seemed to demand a somewhat more exhaustive investigation a committee was chosen for that purpose and final action deferred to this time.

It has been suggested that a much smaller storage reservoir than that recommended by our engineers, at a less altitude on the mountain, might answer our purpose, at a considerable saving in cost and avoid encroaching upon the State Reservation at the point first

considered. To determine this question members of the committee, accompanied by Mr. Poole and with Mr. Buss as engineer, went carefully over the ground on the day following town meeting. Levels were taken upon the proposed storage area and flow lines established satisfactory to Mr. Poole, which were about four feet under those first recommended by our engineers. The water course was then explored down to the lowest point at which a gravity source could be obtained, but owing to the steep slopes no site could be found for a storage basin holding a satisfactory volume of water except at a prohibitive cost. After this investigation it was Mr. Poole's opinion, as well as that of all others present, that the only practicable reservoir site was in the natural basin partly on the State Reservation and partly on land of Mr. Poole, substantially as determined by our earlier investigation.

Since that time, under the direction of our engineers, surveys have been continued by Mr. Buss, and the line with levels taken and distances measured, has been carried through from the reservoir site to the intersection with our present water system at Jaffrey Center. In this survey outcroppings of rock were carefully noted and possible variations of the line were considered. With this additional data, plans and specifications have been prepared, and the Public Service Commission and State Board of Health have been consulted in regard to their requirements so that if the recommendation of our engineers is adopted the necessary information can be immediately furnished to bankers or bonding houses in case an issue of town water works bonds may be required.

The estimated cost of the proposed development is in round figures \$60,000. It will be seen from this that the expected saving from a smaller reservoir has been only partly realized. This is due to the fact that with smaller storage the engineers thought it advisable to increase the size of the water main from the reservoir to Jaffrey Center from eight to ten inches in diameter; and also to the fact that a more thorough study of the line has called for a considerably increased estimate for rock excavation.

The financial aspect of the problem before us has

been only briefly considered, but it is believed by your committee that the interest on this proposed expenditure can be met by increased revenue from the water system through a revision of our water rates, especially by higher charges to our large consumers. In this way it may be possible to secure the necessary extension to our water system with little if any addition to the tax burden of the town.

The report of Messrs. Sanborn and Bogert has been examined and endorsed by other engineers of the highest standing, notably by Mr. Frederic H. Fay of Boston, one of the leading engineers of the country, who has been for forty years a frequent guest at The Ark. Mr. Fay is well acquainted with the Mead Brook water shed, and by careful study and consultation on three occasions with our engineers he has made himself familiar with the water situation in Jaffrey. His opinion upon the subject is expressed in a letter which will be read with his consent if required.

While recognizing that we have other sources of supply available at somewhat less first cost, yet your committee give their recommendation to the Mead Brook project for the following reasons:

- 1 It is recommended by competent engineers.
- 2 It is the only gravity source available, and is a natural complement to our present system.
- 3 It will furnish water of unsurpassed quality in sufficient quantity.
- 4 It will supply a section that with the addition of this important public utility to its natural attractions, promises great future development and a corresponding addition to the taxable property of the town.
- 5 It will save present pumping expense at Jaffrey Center.

In view of the above considerations, your committee beg leave to recommend Mead Brook as a source of addi-

tional water supply for the town of Jaffrey, to be developed in accordance with plans and specifications prepared by Sanborn & Bogert, which are made a part of this report; and also in compliance with all the conditions of a deed of right-of-way and flowage to be presented at this meeting by Mr. Joel H. Poole and Mrs. Alice E. Poole.

ALBERT ANNETT
CHAS. W. BACON
JAMES B. PERRY
ARTHUR S. BUSS
E. C. BOYNTON
ALBERT CLOUTIER
GEO. J. COURNOYER

Mr. Albert Annett read several letters from the engineers and exhibited a deed from Joel H. Poole and Alice E. Poole, which they intended to execute, if the project goes through, giving the land and right of way to the town, with the conditions in relation to same.

Voted, That the report of the committee chosen at the previous session of this Meeting of the Voters of Jaffrey, on March 10, 1925, to further investigate the subject of an increased town water supply and obtain revised estimates of the cost of the same, be accepted and adopted; and that the same committee be now and hereby duly authorized, in the name of the Town, to construct and put in operation, as soon as practicable, an extension of the Town's present water system for the purpose of furnishing an increased supply of water; and that the source of said increased supply shall be Mead Brook on Monadnock Mountain. And that said committee have full power, in behalf of the Town, under the provisions of an Act of legislature known as the charter of the Jaffrey Water Works, as approved March 21, 1901, and amended February, 1925, to take or purchase any necessary lands, ponds, streams, springs and other real and personal property, or rights in the same, and do any other necessary thing which the Town of Jaffrey is authorized to do by this Act; except that said committee in the exercise of its authority shall comply in every par-

ticular with the conditions of a deed to the Town of a right-of-way and flowage right by Mr. Joel H. Poole and Mrs. Alice E. Poole.

Voted unanimously, that the Selectmen be and hereby are authorized and instructed to issue and sell bonds of the Town, upon the most favorable terms, for an amount not exceeding \$60,000.00, to defray the cost of the addition to the water-works system authorized by a previous vote passed at this meeting, payable serially hereafter, at the rate of \$1,000.00 annually for four years beginning with the fiscal year 1926, and \$4,000.00 annually thereafter; and pay over the proceeds of the sale of said bonds to the Special Committee heretofore created for the purpose of constructing said addition.

Voted that Article 10 be laid on the table to an adjournment of this meeting to be held the first Monday in June, 1925, at 7:30 P. M. in Union hall, East Jaffrey, N. H.

Mr. Albert Annett offered the following resolution, which was adopted:

Resolved, That the Citizens of Jaffrey, in Town Meeting assembled this sixth day of April, 1925, have heard with pleasure the valuable offer of assistance made by Mr. Joel H. Poole and Mrs. Alice E. Poole in the matter of an addition to the Town's water supply; and that the Town having voted an extension of its water system along the lines contemplated by said offer, hereby accepts with gratitude and a deep appreciation of the generous public spirit which prompted it, the proposed gift of a right-of-way and site for a storage reservoir on Monadnock Mountain with all the conditions appertaining thereto.

Voted that the town raise and appropriate \$725.00 to construct a side walk as asked for in Art. 23.

Mr. M. L. Cutler reported for the Town Forest Committee, that there was land around Bullet pond, and on

the former Flint land, all belonging to the town, which could be profitably planted with pine trees.

Voted to accept the report.

Mr. C. L. Rich offered the following resolution, which was adopted:

Resolved that it is the sense of this meeting, that the Water Commissioners be authorized to set out more pine trees around Bullet pond.

Voted to adjourn till the first Monday in June 1925, at 7.30 P. M., in Union Hall, East Jaffrey, N. H.

Respectfully submitted,

JOHN G. TOWNSEND, Town Clerk

ABSTRACT OF ADJOURNED TOWN MEETING

June 1st, 1925

One of the Committee on additional water supply being present stated, the Committee had nothing to bring before the meeting at this time, but suggested that the meeting be adjourned to some later date.

Voted to adjourn to the second Monday in September, 1925, at 7.30 P.M., in Union Hall, East Jaffrey, N. H.

Respectfully submitted,

JOHN G. TOWNSEND, Town Clerk

ABSTRACT OF ADJOURNED TOWN MEETING

September 14th, 1925

The following report from the Committee on Additional Water Supply was read:

To the Voters of Jaffrey:

The Committee on Additional Water Supply, chosen at an adjourned meeting of the Town of Jaffrey, on April 6, 1925, to construct and put into operation an extension of the Town's water system, beg leave to report that present careful estimates indicate that a further appropriation of \$1,500.00, in addition to the sum of \$60,000 voted at a previous meeting, will be required for the completion of the work in accordance with accepted plans and specifications.

Voted that the Selectmen be authorized to borrow \$1,500.00 to complete the additional water supply.

Voted to adjourn.

Respectfully submitted,

JOHN G. TOWNSEND, Town Clerk

REPORT OF SUPERINTENDENT OF SCHOOLS

To the School Board of Jaffrey:

I herewith submit to you my eighth annual report, this being the seventeenth under union supervision.

There has been but little change in the total enrollment of the schools as compared with last year. During the first twelve weeks of the present year the enrollment has been 478 as compared with 484 for the school year 1924-25, but the average membership has been 454 as compared with 443 last year. The enrollment of the High school has dropped from 60 to 53. Last June seventeen pupils were graduated from the senior class of the Conant High school, while this year's senior class numbers but four. There has been, however, an enrollment of twenty-five in the freshman class.

There have been two changes in the high school teaching force. Miss Marjorie L. Hartford, who taught Latin and French last year was released to accept a position in East Providence, R. I., and her place has been filled by Miss Margarita S. Glancy of Manchester, a graduate of College of New Rochelle, N. Y.

Miss Esther M. Todd, teacher of Domestic Arts and Elementary Science, retired and was succeeded by Miss Marion A. Mack, a graduate of Conant High and of the three year Domestic Arts course of Keene Normal School.

In the intermediate grades Miss Mildred Lowe, teacher of grades five and six accepted a position in Concord, Mass., and her place has been filled by Miss Elaine B. Dunn, a graduate of Keene.

Miss Dorothy L. Record, teacher of grade five, withdrew to accept a position in the Junior high school at Whitinsville, Mass., and her place was filled by Miss Kate A. Brooks of Antrim, a teacher of several years experience who has taught very successfully for three years in the Troy Primary school.

In the primary school Miss Mildred R. Bean, who has taught very successfully for three years in the second grade, was released to accept a position in Concord, Mass. Her place was taken by Miss Evelyn Evans who last year taught grades one and two in the Union Hall building, and Miss Evans in turn was succeeded by Miss Olive Cournoyer, a graduate of Keene Normal school.

Miss Nora C. Hurley, a Keene graduate with three years experience, who was secured to finish the year in grades three and four accepted her reelection for the present school year.

In district No. 4 the same arrangement as last year has been continued where seniors from Keene Normal school have been sent out for periods of nine weeks each where they are under the supervision of the regular rural supervisor appointed by the Normal school.

At the last annual school meeting an informal vote was taken favoring the reopening of the rural school in district No. 3. At this time it appeared likely that eight or nine pupils in the lower grades would be accommodated by this arrangement and that there would be a saving in the matter of transportation. It was, therefore, decided to carry on this school under the same arrangement as has been successful in district No. 4, but the classes have been too small for real satisfactory work and there has been some dissatisfaction on the part of some of the parents. Although the school building and equipment are exceptionally good it has been found very difficult to conduct the school as successfully as had been hoped. During the first twelve weeks there were twelve cases of tardiness in district No. 4, while in district No. 3, with a membership of five pupils there were fifty tardy marks, more than twice as many as in any other school in town.

Under the circumstances it would hardly seem wise to recommend that this school be continued another year.

The enrollment in the evening school has been about the same as for the past two years. The time seems to have passed, for the present at least, when the school is required for the teaching of English to beginners, but a considerable number of students desire to continue more advanced work and have been quite regular in their attendance.

During the spring the grounds of the primary school were filled in and a walk laid to Union Hall. It was not considered advisable to paint the whole of the wooden building, but front doors were painted and a new floor laid between grades one and two, and some painting was done at the Conant High school building.

New curtains have been ordered for the front windows of the high school building which will soon be installed. These have long been needed and will greatly improve the appearance of the school.

As indicated in the report of the school nurse the regular examination of all pupils has been made each year for the state tabulation, and careful attention has been given to the physical welfare of the children. We have been fortunate in having very little sickness among our pupils during the past year.

As a gift to the Conant high school the class of 1925 presented a handsome portrait of Mr. Jule C. Durant, who in his will showed such a deep interest in the welfare of the school.

The work of the Parent-Teacher Association has been most successfully carried on during the past year. Our organization was, at the close of the school year, the largest in the state. A most interesting program has been carried on during the present year with Miss Ruth Peckham as president of the association.

During the past summer the care of the bath house

was taken over by the town, but the Parent-Teacher Association employed Miss Katherine Hamill as swimming instructor and also as playground supervisor.

To many it has seemed advisable that the playground as well as the bath house should be taken over entirely by the town.

The expenses for the elementary schools for the next school year will not vary much from that of the present year, while the appropriation for the high school may be somewhat smaller on account of the Durant Fund which is available solely for high school purposes.

Excellent work is being accomplished by the teachers, both in the high school and in the elementary grades, the percentage of attendance has been high, and the number of tardinesses outside of the one school mentioned above has been very low.

I wish at this time to thank the school board, teachers, pupils, parents and all who have shown their interest and co-operation in the work of the schools.

Very truly yours,

LEWIS S. RECORD,
Superintendent of Schools.

REPORT OF THE HEALTH DEPT.

There were two deaths during the year from diphtheria and two others which recovered, two cases of scarlet fever and one of typhoid fever. It seems that if a doctor had been called in season the two deaths might have been avoided.

There have been several improvements made during the past year in the sewage department. A septic tank has been installed at the Monadnock House. A very bad sewage condition near the Fire Station at the East Jaffrey Village was improved. These improvements were paid for mostly by private parties and for some other improvements at different places.

The septic tank on the Peterboro road is working at the present time and if people will keep old rags out of the sewage pipes it will be of great assistance.

I desire to thank everyone for the ready responses to requests to make our town a healthy place in which to live.

HARLAN F. HODGE,

Health Officer.

To see if the Town will vote to instruct the Selectmen to take action looking toward making the income of the Amos Fortune Fund available for other purposes, there being now no opportunity to use the same for the purposes for which it was originally intended, or act in any way relating thereto.

29th. To see if the Town will vote to close by gates and bars the following old highways: over Pierce Hill from Blick residence to Dublin town line; "Old County Road," leading north from the Turnpike near "Ballou City;" from Underwood residence to Baker place; from A. D. Pierce corner to the J. Coburn place; from A. A. Gordon, Jr., summer residence to residence of E. T. McCoy, or act in any way relating thereto.

30th. To see if the Town will vote a sum of money, not to exceed \$150.00 to provide for a swimming instructor at Contoocook Lake during July and August, under the direction of the Selectmen, or act in any way relating thereto, as petitioned for by Nellie F. Bean and others.

Given under our hands and seal this nineteenth day of February, A. D., 1926.
